What's so great
about ROTC?

Check 'em.

☐ **Great opportunity.** You earn a commission while you earn your college degree. Graduate—you start at the top. Fulfill your military obligation as an Army officer. With officer's pay. Officer's privileges.

☐ **Great advantages.** Employers prefer a college graduate with service as an officer. Pay more to get him. Because he's a trained, experienced leader. Can handle heavier responsibilities.

☐ **Great success.** From the 5% of college men who had ROTC training have come 24% of our state governors, 28% of executives earning \$100,000 to \$325,000 per year, 10% of Congress, 15% of our ambassadors.

☐ **Great guys.** ROTC men are campus leaders—in ROTC, athletics, extracurricular activities. And they do better scholastically than non-ROTC students.

☐ **Great extras.** \$50 per month in junior and senior years. Scholarships for outstanding students. Free flight training at over 125 colleges. Extra social activities—military balls, honor societies, bands, rifle teams.

Any way you look at it, there's a lot more going for you when you're in ROTC.

Your future, your decision . . .
choose **Army ROTC.**

Welcome to Clemson

We at Clemson University are delighted to have each of you on our campus today.

This is an exciting period in the growth of the University, now in its 76th year as an academic institution. Our policy now—as it was when the University opened on July 6, 1893—is that Clemson remain the greatest single influence in South Carolina on the combined educational, cultural, agricultural, industrial and economic development of our state.

Clemson is deeply involved in all activities and is sincerely committed to the attitudes that make a true University. We are engaged in teaching undergraduate men and women, and graduate students, in many fields leading to the bachelor's, master's and doctor's degrees. We are engaged in research dedicated to the pursuit of truth and the advancement of science. We are engaged in public service for South Carolina and the nation.

And too, we are busily preparing for the future. Evidence of this concern is the multi-million-dollar J. C. Littlejohn Coliseum adjacent to this stadium. The magnificent coliseum and seven other new buildings completed or under construction represent the initial investment of a dynamic building program that will total \$60 million by 1975. As we look to the next decade, it is extremely important that we prepare our young men and women to meet the challenges they will face.

Please come back often and give us a chance to show you Clemson University at work for education of the highest quality.

Stick around.

One of the best things about growing up in this area is that you never have to leave it. Because its economy is growing by leaps and bounds, producing new job opportunities in both business and agriculture. Too, you'll find technical and higher education facilities second to none. So, come graduation time, stick around. You won't find a better place to live, work and play.

Howard Now Football Dean

Coach Frank Howard has now taken over as dean of American football coaches, not only from the point of service at one school, but also in the number of years as a head coach.

With the retirement of Warren Woodson at New Mexico State after the '67 season, this left Howard in the driver's seat for all the chips.

Howard is one of four active coaches to have won 150 or more games during his career and he has out lasted 47 other head coaches in the Atlantic Coast Conference since taking over the Tigers in 1940.

Clemson has won five outright ACC titles under Howard and has shared another. In the 15-year history of the conference, the Tigers have posted a 59-26-2 against family competition and own an 89-56-8 overall mark. In all-time play against ACC teams, Clemson has posted a 120-65-5 record.

The Century Club . . .

Coach Frank Howard of Clemson has now taken over as dean of American football coaches, having had more years as a head coach at a major football institution (as classified by the National Collegiate Athletic Bureau) as well as having the longest tenure in the nation.

Howard is one of 12 active coaches who has won over 100 games and is one of four to have won 150 or more games. Others in this category are Bear Bryant at Alabama, Johnny Vaught at Mississippi and Clarence Stasavich at East Carolina.

Darrell Royal of Texas joined the "Century Club" last year and now has 105 wins while Warren Woodson at New Mexico State and Buff Donelli of Columbia retired from coaching.

CLEMSON:

A Growing University

Clemson University has served the educational, research and cultural needs of the state and its people since it was founded in 1889, the result of a bequest to the state by Thomas G. Clemson, first U.S. Commissioner of Agriculture.

Since its opening on July 7, 1893 with a faculty of 15, a student body of 446, and a physical plant of four red brick buildings, Clemson has remained dedicated to its primary goal of serving the educational needs of the individual student.

Once an all-male institution, the doors were opened to women students in 1955 when the military status was dropped. On July 1, 1964, Clemson Agricultural College officially became Clemson University.

This year, a record 6,838 students are enrolled on the main campus and at two-year centers in Greenville and Sumter. Ninety per cent of these students graduated in the top half of their high school classes. In the past 10 years the faculty has more than doubled. Almost 70 per cent of the University's 470 faculty members hold terminal degrees in their specialties.

Clemson places academic stress on curricula designed for a quality education, and pursues a continuing policy of curricula evaluation to keep pace with the changing needs of industry, science and business.

In little more than a decade, Clemson has added more than \$45 million to teaching and research facilities. The Robert Muldrow Cooper Library is the center of student and faculty study and research, and is also the permanent home of papers and souvenirs of the Honorable James F. Byrnes.

HIGH-RISE RESIDENCE HALL ON EAST CAMPUS

An additional \$60 million of construction to meet the needs of a 10,000 student body by 1975 is well under way. Already completed on East Campus are two high-rise residence halls, an additional cafeteria, and a student health center. The J. C. Littlejohn Coliseum will soon open. Two additional buildings will be completed in early 1969: the D. W. Daniel Arts and Science Classroom Building and the Rhodes Graduate Engineering Research Building.

The Clemson administration under Dr. Robert C. Edwards emphasizes the importance of scholarship and excellence in education and at the same time is devoted to advancing Clemson as the leading force for the educational, industrial, business and cultural development of its state.

SCHILLETTER HALLS, A \$1.1 MILLION DINING FACILITY, SERVES STUDENTS LIVING IN THE GROWING EAST CAMPUS AREA.

Death Valley Record . . .

In the past 26 seasons, 23 teams have made appearances in Clemson Memorial Stadium, now pretty widely known as "Death Valley." Only five teams (George Washington, Villanova, Maryland, Alabama and Georgia) have an edge on the Tigers' home ground and three of these (GW, Villanova and Alabama) have just played one game in Memorial Stadium. Below is a season-by-season rundown of Clemson's record at home since the stadium was built and used for the first time in 1942.

ADDITIONAL FACTS

Clemson's longest winning streak at home is 10 games and occurred during the 1949-50-51 seasons. A nine game skein came during the 1957-58-59 seasons. The Tigers have lost three in a row at home once (1962).

Clemson has shutout opponents 26 times in "Death Valley." (Presbyterian 9 times; N. C. State 4; Furman, Duquesne and Wake Forest, twice each; and VPI, Auburn, Citadel, Virginia, Duke, North Carolina and Texas Christian, once each). The Tigers have been shutout five times at home in 24 seasons. Between the Maryland whitewash in 1953 and the Duke blanking in 1962, the Tigers scored in 38 consecutive home games.

There is absolutely **no solution** to
the **water pollution** problem

except:

modernized disposal methods of **sewage & industrial wastes**

In Colonial days our streams were able to carry off the waste created by the small population. Over the years, the streams fought a losing battle; today they are overwhelmed. They just can't handle the great amount of waste dumped in by cities and industry.

The only way to correct this situation is through the proper disposal of sewage and industrial wastes. Realizing this great need, Pomona Pipe Products has broadened its services in the sanitation field.

In addition to the sanitary sewer pipe which we have been selling for generations, we now carry a complete line of other sanitation equipment, such as sewage pumping stations, treatment plants, chlorination equipment, etc. Our technical staff is ready to help with all phases of sanitation planning, including financing and federal programs. We welcome an opportunity to be of assistance on any problem which you may have regarding waste disposal.

The Duke Series

The Duke-Clemson series is one of the younger ones along the collegiate trail. By being given the infant status means it was started since Frank Howard became coach of the Tigers.

Actually, Clemson and Duke were the last two Atlantic Coast Conference teams to get together after the league was formed in 1953. Their first game counting in ACC standings was in 1957, but prior to this, there was a three-game set in 1934-35-36 in which the Blue Devils won all three by sizeable scores.

This was back in the days of Wallace Wade and Jess Neely.

The 1957 game ended with a 7-6 victory for Duke in the rain at Durham, with Clemson going from goal line to goal line, but only scoring once. The Tigers claimed a 6-0 win at Clemson the following season, and not many 31-30 games have been as exciting. It was a fan thriller.

After Duke won 21-6 in 1960, a sportswriter asked Coach Frank Howard what the turning point of the game was and he quipped, "Three years ago when I didn't get any good halfbacks."

But the donnybrook of them all was in Durham in 1963 which the Blue Devils took, 35-30, but as the seconds ticked off the clock, Clemson's passes fell incomplete deep in Duke territory and it was not until the final few seconds that the Blue Devils could breathe easier.

These two teams have dominated in football since the ACC was formed. Take away the championships Clemson and Duke have won and there wouldn't be many left for anyone else.

Duke has won four titles outright and shared two others while Clemson has five clear crowns and another divided one. Duke is the only team to have won three straight ACC championships—a feat Clemson is working on this season.

ste you never get tired of.

Oldsmobile recreates a scene from the classic movies.

Olds Delta 88 Royale: The bold and the beautiful.

Meet our new top-of-the-line 88. Big-car room and ride on a longer 124-inch wheelbase. Vinyl roof, pin-striping, fender louvers, big Rocket 455 V-8 and much more, standard. All for little more than you'd pay for an ordinary car! **Escape from the ordinary.**

Directions in RESEARCH at Clemson University

Productive research and development usually results when a problem is approached by intelligent people using advanced technology and excellent facilities. At Clemson University these vital elements are combined to make up a research program designed to solve a wide variety of problems in many fields.

Funds allocated by such federal agencies as the National Science Foundation, the Department of Health, Education, and Welfare, and the National Aeronautics and Space Administration; by the state through university research funds; and by private industry provide Clemson research scientists with the unifying link between man and the ultimate solutions to his problems.

In the past decade faculty research at Clemson has more than doubled and currently research projects funded in excess of \$5-million are providing keys to the doors of knowledge and understanding.

Tangible indications of Clemson's overall research efforts are clearly evidenced within the buildings and facilities that house the university's seven primary academic units.

A great puzzle that has always faced mankind has been man himself—the human body and how it

functions. Research at Clemson is dealing with such diverse elements as synthetic bones and arteries, methods of providing cleaner body fluids, improved diets that will virtually eliminate the possibility of gallstones, mathematical models describing the release, diffusion, and consumption of oxygen in the capillary-tissue systems of the brain, and methods for improving the air and water pollution problems.

Clemson University research projects are also being directed to the myriad products and scientific advancements which are constantly changing and improving man's natural environment. Improved textile products, disposable containers, studies in food production and processing, conservation methods to protect our forests and rivers, geological surveys, and problems dealing with space and space travel are but a few of the timely questions and problems currently under investigation.

It is clearly evident that Clemson University through its research program is looking to the future—a future where a superior individual lives in a planetary system which has been greatly improved by the efforts of man.

We make it easier to fly.

We'll fly 23 million people this year. Our object is to make flying easier for every one of them.

1. We're making reservations even faster.

With the most sophisticated system in our industry.

It remembers the name, phone number and flight information on more than one million passengers.

2. We're eliminating the check-in line.

By taking your luggage and checking you aboard your flight at curbside.

3. We see that our jets are ready when you are.

By having skilled maintenance technicians who work through the night to have jets ready to fly in the morning.

4. We turn terminals into places to enjoy.

Visit any waiting area. You'll find comfortable seats in living-room-like settings.

Visit an Eastern Ionosphere Lounge. Here, first class passengers can enjoy the atmosphere of a private club.

5. We put you at ease in the air.

An Eastern stewardess knows more about making life easy for you than most people learn in a lifetime.

6. We make dining aloft a pleasure.
We're substituting our cooking for yours, so we try to offer something as good.

We put fine restaurant cooking on selected Ionosphere flights, with an entree choice in both first class and coach.

7. We put a stopwatch on our baggage handlers.

If the clock shows too much time, we find the reason and correct it.

8. We have the finest jets.

With 166 now, and another 37 to be added this year. In the 1970's, the Lockheed 1011 and the supersonics will join this fleet. All piloted by seasoned professionals.

9. We have other people you'll never meet.

People who work out convenient schedules, vacation packages, low-priced fares and pay-as-you-go plans.

All with one goal in mind: to make flying easier for you.

1968 CLEMSON UNIVERSITY TIGERS

Break your beard in right.

Right now your beard is in the formative stage.

You can shave it with a razor blade like your father does. And each time you do your beard will grow back a little more difficult. Until one day shaving's no longer a chore. It's an agony.

Look no further than your father's face for proof.

But fortunately, you're catching your beard at an early age. You can break it in to be just as shaveable 10 and 20 years from now as it is today.

With a REMINGTON® shaver.

And if you think the kind of shave we're selling won't be close enough for you, you're wrong.

Our new blades are sharper than anything that's been in an electric shaver before. And there's a dial that lets you adjust them for your skin and beard.

What's more, you can dial a REMINGTON electric shaver into a sideburn trimmer.

Admittedly, it costs more to buy our electric shaver than a razor and some blades.

But it's a good investment.

These next few years will determine how you and your beard will get along for the rest of your lives. †SPERRY RAND™

We're proud...

that pHisoHex® has been selected as the antibacterial wash to be used by the U.S. Team for the 1968 Olympic Games!

A winning athlete takes special care of his skin. Above all, he protects it against bacteria that can cause infections and lead to missed practice sessions and games.

If you've ever tried to play with an infected blister on your heel or an abscess on your finger, then you know the role of healthy skin in sports. And that's why pHisoHex is an important part of an athlete's daily health routine.

pHisoHex is America's leading liquid antibacterial skin cleanser in homes and in hospitals. Used regularly in place of soap, pHisoHex produces a superclean skin *and* builds up an invisible antibacterial film of hexa-

chlorophene to protect your skin against germs between washings.

And if you have problem skin, pHisoHex is often valuable. The antibacterial film it leaves on your face will ward off blemish-infecting bacteria. pHisoHex also helps to soften and wash away blackheads.

Use pHisoHex, the skin cleanser of winning athletes.

Ideal Photography Facilities...

Haralson

Shockley

Osteen

A photographer staffing a Clemson football game will find no better facilities anywhere than in the press box at Memorial Stadium.

Those who record the game in pictures are accorded everything needed to cover a major football attraction.

With chief photographer Charles Haralson and his assistants Tom Shockley and Bill Osteen on hand, equipment, space, chemicals and game action pictures are available to visiting photographers and sportswriters.

With the Communications Center now in its second year of operation, almost any request for film, video tape or stills can be filled during the week. Harry Durham and Jim Burns head up this operation and these

two are ready and willing and on call seven days a week during football season.

A 27-foot open section right in the middle of the press box is reserved for visiting and home team movies during the game.

The covered top deck — sometimes referred to as "Top of the Valley" — has a two-fold purpose. The 35-yard front side facing the field is used by TV cameramen and still photographers with an unhindered vantage point for shooting from top side.

The back side of the upper deck is where the famed buffet dinner is served to all those with working press passes. Tables and benches are furnished and many a yarn is swapped here before game time.

Within the press box is a complete dark room where film can be loaded, processed and wire photos transmitted during the game.

Clemson photographers take color movies used on the Frank Howard Show each Sunday and black and white movies are taken for Clemson coaches and Tiger opponents.

Game action stills are also taken and furnished to any news media desiring a set through the use of a Fotorite machine, a rapid print processing. This machine is the only one in use in the Atlantic Coast Conference and one of the few in the nation so used.

During the past six seasons, nearly 2,500 photos have been given free to the press by this process.

Clemson Radio Network . . .

Phillips

Buchanan

The 1968 season finds the Clemson Football Network in its 15th year and again, it will be one of the largest university-operated networks in the nation.

During 1967 the network averaged over 53 stations a game, which was an all-time high.

The network will have a new team this fall handling the play-by-play and color.

Jim Phillips, who succeeded Bill Goodrich in the capacity of sports director of WFBC Radio and TV in Greenville, will handle the play-by-play for the first time. The color man will be Bruce Buchanan, also of the WFBC staff. Buchanan replaces Jim Kingman.

The Clemson network is operated wholly by the athletic department and has been one of the most successful anywhere. The network has averaged slightly over 50 stations a game for the past seven seasons.

Phillips came to WFBC from his native Ohio with 15 years of broadcasting experience behind him. His first eight years were spent in all phases of radio and television announcing and production. The last seven have been in program and sports directing.

Phillips' affiliations have been with WATG, Ashland, WFAH, Alliance and WIMA, Lima, all in Ohio. He came to WFBC from WFAH where he had been program and sports director since 1961.

He has had seven years of radio play-by-play, doing both high school and college games in football and basketball. His last collegiate assignment before coming to WFBC was play-by-play reporter for the Kent State University Sports Network.

Buchanan, who is general manager of WFBC Radio, is well known in sports broadcasting circles throughout the Carolinas, having done a variety of high school sports for many years.

He has been closely associated with Clemson athletics over the past 15 years.

With Phillips and Buchanan working closely together at WFBC during the week, they can be expected to give the Clemson Network listeners a picture commentary of action taking place on the field each Saturday.
